The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Requirement for election is maintained; species of claim 16 and 17 elected.

Abstract is still missing.

Continuing data, noting this application to be a divisional is not evident on P. 1 of the specification.

Claims 13 –16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Doherty 5331003 in view of Oegg et al 3271249 and Assmann et al 6034116.

The rejection of record is maintained.

Applicant's arguments filed on 11/24/04 have been fully considered but they are not persuasive. Applicant's arguments are the prior art fails to provide the instant compounds as claimed, but Assman, reading the whole patent, does at formula (I) encompass the substituted fused rings at positions R₃, R₄. However, the instant combination of maduramicin with claim 16 is not seen as suggested by the prior art.
